WHAT PATIENTS ARE SAYING

“ Dr. Reichel takes the time to explain any and all questions or concerns you may have. I feel very comfortable with the injection procedures I have had with Dr. Reichel. She talks you through every step of the injection procedure making it a pleasant and comfortable experience. I have had great results and get many compliments from family, friends, and coworkers. She is awesome! ”

MEET JENNIFER REICHEL, MD

Dr. Jennifer Reichel is the founder and director of Pacific Dermatology & Cosmetic Center.

She specializes in liposuction, skin cancer, eyelid and facial rejuvenation, leg veins, Botox, tissue fillers and lasers. From liposuction and lasers to injectables like Botox, Restylane, and Radiesse, Dr. Reichel focuses on rejuvenating youth and beauty synergistically. With a passion for excellence, she is dedicated to delivering custom-tailored results that are harmonious with patients' goals and proud reflections of her work.

“ I believe that an all encompassing approach to skin care is the key to radiant, healthy complexions. —Dr. Reichel ”

Dr Reichel attended the University of Colorado for her doctorate of Medicine and completed her Dermatology Residency and Mohs skin cancer/cosmetic surgery fellowship at the University of Washington.

Dr. Reichel is on faculty at the University of Washington and is the primary teacher of cosmetic procedures for the dermatology residents and fellows. She is active on a national level and is a regular speaker at skin surgery meetings. She has been featured on television and in numerous magazines including New Beauty, Spa Magazine, Allure, Skin & Aging and MedEsthetics. She is a fellow of the American Academy of Dermatology, the American Society of Dermatologic Surgeons, The American College of Mohs Surgeons (ACMS), the American Society for Laser Medicine and Surgery (ASLMS), the Women's Dermatologic Society and the Washington Dermatology Societies.

WHY PACIFIC DERMATOLOGY & COSMETIC CENTER?

What's the difference between Pacific Dermatology & Cosmetic Center and other laser centers and Medi-Spas? Non-surgical rejuvenation such as Botox, fillers and lasers has become so popular that many Medi-Spas and laser centers have opened around the country. Unfortunately, these centers may not employ physicians to perform either the evaluations or the actual procedures. If they do, they may not be dermatologists or plastic surgeons and are often not on-site at all times to supervise.

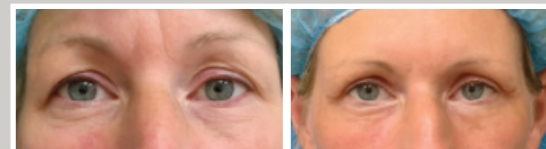

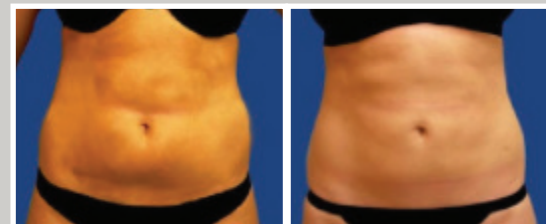

Patient safety is important. At Pacific Dermatology & Cosmetic Center, all cosmetic procedures are performed by a qualified physician or under the direct supervision of a qualified physician. We believe that cosmetic treatments are an extension of medicine and surgery. Dermatologists are the only doctors who specialize specifically in the diagnosis and treatment of skin conditions.

Dr. Reichel will personally attend to you at your Cosmetic Consultation. She performs all of the cosmetic surgeries, major laser procedures, Botox and fillers. Laser hair removal, Ultherapy, IPL photofacial rejuvenation and chemical peels may be performed by one of our highly experienced Physician Assistants, Registered Nurses or Medical Assistants. “By seeing all of my patients through to completion of treatment, I am better able to ensure patient safety and great results.”

WHAT PATIENTS ARE SAYING

“ I went in for laser treatment of a red birthmark from broken capillaries plus treatment of an old surgery scar. She was kind and upfront saying it would take multiple sessions of v-beam laser for the red birthmark and Fraxel laser for the surgery scar. Thus far I've had 2 laser sessions approx eight week apart from each other and will need one or two more sessions. Numbing cream was always applied prior to the laser so the procedure didn't hurt a bit. After only two sessions the scars have drastically improved and are barely visible! ”
