SURGICAL

## FACE MAKEOVERS

01

FACELIFT + MORE

**YOUTH RESTORED**  
To create younger-looking eyes,  
this patient had blepharoplasty,  
while a necklift and lower facelift  
rejuvenated her appearance.  
Procedures performed by David  
H. Harley, MD; Asheville, NC.

02

LIPOSUCTION + ULTHERAPY

### INSTANT CONTOURS

To help reduce excess fatty tissue beneath the chin and restore youthful contours, this patient had liposuction on the neck and jaw. The same area was then treated with Ultherapy, to further define the jawline and give an overall lifted look. Procedures performed by Jennifer Reichel, MD; Seattle, WA.

FACELIFT + MORE

### REFRESHED + REJUVENATED

Bothered by her aged and weathered-looking appearance, this 50-year-old patient had her neck thinned down with liposuction, her upper and lower eyelids restored with blepharoplasty, her face refreshed with a facelift and her skin resurfaced with a fractional CO<sub>2</sub> laser. Procedures performed by Brent J. Smith, MD; Centennial, CO.
